

Attention Deficit Disorder (ADD)

The IPFW/Parkview Health and Wellness Clinic can only continue medical treatment of ADD. We do not provide diagnosis or testing at the clinic for ADD. Student requesting testing will be referred to physician/counseling offices providing testing.

Students who are currently being treated elsewhere may come here to continue their treatment. They will be asked to give us permission to get copies of records from home confirming their diagnosis and current treatment. If a student needs a refill on medication before we are able to obtain such records, we will usually give 1 month of medication if the student brings us an empty prescription bottle showing their most recent prescription.

Students who have been diagnosed with ADD may request accommodations through the department of Services for Students with Disabilities at 481-6657 or website www.ipfw.edu/ssd.

For additional information refer to the Medline Plus website at:
