

Obtaining Medical Records

The student health center at IPFW University is operated by Parkview Occupational Health. We follow the policies and procedures established by that health system for the protection of medical information. Those policies and procedures, in turn, are established to meet the requirements of the Federal Health Information Portability and Accountability Act.

If you would like records released to another physician or health facility, you will need to fill out a Records Release Authorization form. This form can be obtained at the health center.

(Effective July 1, 1994, House Enrolled Act 2081 legislated the fees to be charged by health care providers for copies of the first ten (10) pages \$15.00, plus an additional charge of \$0.25 per page for every page following the tenth (10th). Actual Postage is an additional charge. If the request is needed within two (2) days, \$10.00 can be charged for expedition the process.)
