Guests with Accessibility Needs

Parking
There is limited handicapped parking in front of Rhinehart Music Center and in Parking Garage 3. The circle drive in front of Rhinehart may be used for drop-off only.

Seating
We are fortunate to have an abundance of seating in Auer Performance Hall which does not require climbing steps or provides a space for a wheelchair-user among typical seats.

Please advise any guests with mobility issues to seek direction from an usher as they enter the room. They will be directed to the best seating for their needs on a first come, first served basis. We have not as yet run out of appropriate seating at a Nursing Pinning, but just in case - we do employ the honor system and request that family members accompanying someone who needs accessible seating be aware of the needs of others around them. If it appears that someone cannot find an appropriate seat, please give up your accessible-seat for that person. As stated before, we have never yet had a problem accommodating everyone.
