Buchanan Benefits from IPFW Job Fairs

February 2016

In 2015, Buchanan Hauling underwent an almost \$400,000 expansion into a full-service logistics company, Buchanan Logistics. The company provides top-quality transportation logistics solutions tailored to the needs of their clients throughout the United States, Canada, and Mexico, with more than 15,000 truckload and LTL partners.

Buchanan Logistics' Development

Today Buchanan is one of the largest carriers in northeast Indiana with offices in Fort Wayne, Indianapolis, and Pittsburgh, and it is currently seeking other locations. The company achieved \$90 million in revenue in 2014, with a goal to achieve a total of \$250 million in total annual revenue.

Buchanan Logistics hired 38 new employees in 2015, and the team is still growing. A frequent attendee of the IPFW Career Services Career Fairs in previous years, 2016 will be no exception. The company has registered for the Business, Government, and Nonprofit Industry Career Fair on March 31.

Now Recruiting Students

Buchanan Logistics is primarily looking for students majoring in business administration or something similar, who are driven and numbers-oriented. They also value loyalty and teamwork. Experience isn't required, but Buchanan is particularly interested in student-athletes with a competitive streak.
