Job Title: AutoCAD Designer / Detailer

Location: Auburn, IN area

Number of Openings: 5 (could be 6, but based on skill level of individuals)

Start Date: Immediately (anticipating April 20th or April 27th)

Anticipated Starting Salary: $30,000 to $40,000+ per year

Job Summary: The chosen candidate will be designing and detailing products based on customer demands and industry specifications. This person will be responsible for taking customer drawings and converting them to simple drawings using AutoCAD for the shop floor. Then he/she will create the plans to manufacture the product and deliver to the customer. 60% of time spent using AutoCAD creating & detailing the drawings, while the other 40% is coordinating internally and with customers. This designer will be responsible for the full design and project management; 3-5 projects will be managed at a given time. This person must be able to re-prioritize focus based on business needs and deadlines without hesitation; can expect to work on tight timelines and deal with ambiguity.

Must Have:
- Proven ability to design using AutoCAD
- Technical Education (Bachelor’s, Associate’s, or Certificate of some form)
- Strong mathematical and dimensional analysis skills
- Ability to express and articulate the following attributes:
  - Work ethic
  - Self-motivation
  - Problem-solving
  - Prioritization and attentiveness to detail
