Preamble

Context
This Strategic Plan has been developed as the successor to the IPFW Strategic Plan for 2001–07 and as a component of the Purdue University strategic planning process. IPFW achieved a broad range of accomplishments through the 2001 plan, including the development of new facilities and new programs, the opening of a Student Housing complex, and the movement of the IPFW Mastodons to a Division I athletics conference. This new plan refines IPFW’s mission, vision, and values. The process of developing IPFW’s next Strategic Plan has also led to the identification of a series of shared initiatives, strategic goals, strategic directions, and action priorities as the most promising approach for building on current strengths, meeting current and anticipated challenges, and expanding the university’s contributions to northeast Indiana.

History
After many years of offering courses at separate locations in Fort Wayne, Indiana University and Purdue University opened the combined campus of IPFW in 1964. The 1970s were a time of rapid growth, accompanied by the formal merger of the campus administration in 1975. A regional campus of both Indiana University and Purdue University, IPFW is managed by Purdue University under the terms of a management agreement that is renewed every five years. In the 1980s, an academic structure was created to emphasize relationships among departments rather than relationships of departments to Indiana or Purdue mission assignments. Major facilities opened during the early 1990s included the Visual Arts Building; Williams Theatre; Engineering, Technology, and Computer Science Building; and Child Care Center. A new campus facilities master plan was completed in 1995, and IPFW’s first Strategic Plan was completed that same year. A Science Building opened in 1998, the Rhinehart Music Center opened in 2007, and a Medical Education building is under construction. Enrollments for fall 2007 were the highest in the history of the campus. A Student Housing complex opened for fall 2004, a second phase opened in 2007, and plans are being made for a third phase. Final legislative approval has been obtained for construction of a Student Services complex.

Strengths and Comparative Advantages
IPFW offers approximately 200 Indiana University and Purdue University degree and certificate programs. The Indiana/Purdue partnership that created IPFW sustains a tradition of excellence and serves as the foundation for IPFW’s role as the largest provider of university-level programs in the area. This unique partnership provides services and linkages that support IPFW’s efforts to develop distinctive programs and practices and achieve national recognition for responsiveness to emerging needs in northeast Indiana.

IPFW is recognized by its accrediting agencies and other peer evaluators as a mature institution with an excellent faculty and staff. IPFW graduates compare favorably with graduates of other universities on national exams, acceptance to graduate and professional schools, and in their chosen fields of employment. Faculty productivity and student involvement in research and creative endeavor have brought recognition to the campus. Academic
support programs maintain a high level of service to students, faculty, and staff. A wide array of student support programs has also been established to provide personal support services. Support for faculty development in both teaching and research expanded dramatically in recent years. Significant growth in campus facilities has contributed to improvement of academic programs and community service in several disciplines. Partnerships with the community include shared professorships, funding from partner agencies for numerous IPFW programs and facilities, research studies undertaken at the request of community agencies, and collaborations with schools on grant-funded projects.

Constraints and Challenges
The state budget process, based on formula funding and a biennial budget, presents one set of constraints. Despite recent state allocations of “equity funding,” IPFW’s budget remains below the statewide average for master’s-level institutions. State funding is likely to increase only incrementally in the near future. The establishment of Ivy Tech Community College of Indiana has led to increases in the number of articulation agreements with IPFW bachelor’s degree programs but has also led to continuing efforts to limit IPFW’s historic role in providing associate degree programs. In a wider context, higher education itself is changing rapidly: the emergence of new media and networking services in technology, increasing numbers of for-profit educational institutions, increased competition among institutions, and increased expectations of accountability from stakeholders and state and federal governments are among the factors that characterize the higher education climate today. Finally, IPFW itself is also changing, with increasing numbers of full-time students, growing demand for Student Housing, expansion of graduate program offerings, rapid growth of distance education course offerings, broader support for the athletics program, and higher expectations for the university to be a partner in the economic and cultural development of Fort Wayne and the surrounding area.

Designations
The Carnegie Commission has designated IPFW a comprehensive Master’s I university in recognition of the institution’s size and scope of degree programs. The Indiana Commission for Higher Education classifies IPFW as a public regional university responsible for providing higher education to 11 counties in northeast Indiana.
Mission, Values, & Vision

Mission
IPFW’s mission is to meet the higher education needs of northeast Indiana. We offer a broad range of high-quality undergraduate, graduate, and continuing education programs that meet regional needs, support excellence in teaching and learning, advance and share knowledge through research and creative endeavor, and work with the community to develop intellectual, cultural, economic, and human resources.

Values
We are committed to excellence in teaching, student learning, research and creative endeavor, and regional development. As such, IPFW values

- the pursuit of knowledge in an environment that encourages free and open inquiry, academic achievement, scholarship, and creativity.
- a strong general education program and baccalaureate framework that emphasize critical thinking, promote lifelong learning, and continue the traditions of the sciences, arts, and humanities.
- a commitment to student access and success that is demonstrated through services and student life programs responsive to individual needs and interests.
- a campus environment that promotes integrity, respect for diversity, responsible citizenship, accountability, sustainability, and continuous improvement.
- the principles of shared governance, civility, and open communication among all groups within the university.
- the traditions of scholarly excellence and public engagement of Indiana University and Purdue University.
- the professional commitment, innovations, and accomplishments of faculty and staff.
- partnership with the community to enhance social, economic, cultural, civic, and intellectual life in the region.

Vision
IPFW will be a nationally recognized university, known for its regional impact and

- the excellence, value, and accessibility of its academic programs.
- an exceptional environment for teaching, learning, and student achievement.
- the scholarly and creative accomplishments of its faculty, students, and staff.
- its contributions to the quality of life of the region.
Shared Initiatives

The strategic planning process has identified a set of strategic initiatives essential to the accomplishment of the university’s mission. The following initiatives are framed as essential dimensions of the goals and strategic directions identified in the next section of this Strategic Plan:

1. Increase enrollment, improve the academic qualifications of entering students, and increase graduation rates.

2. Foster a diverse, inclusive, multicultural, and international campus community.

3. Expand community partnerships to promote regional and institutional development.

4. Increase gift, grant, and contract funding of scholarships, research, and special university initiatives.

5. Expand and enhance sustainable physical facilities and grounds, including the ongoing development of Student Housing.

6. Continuously improve academic and administrative processes.
Goals, Strategic Directions, & Action Priorities

Goal 1: Foster Learning and Create Knowledge
Fostering learning and creating knowledge lie at the heart of the university’s mission. Achieving the goal requires attracting and retaining a highly qualified faculty, providing support, regularly assessing and improving program quality, employing pedagogies that improve student learning, expanding academic support programs, and enhancing research and creative activity for faculty, staff, and students.

Strategic Directions and Action Priorities:

1. Attract, support, and celebrate a highly qualified and diverse faculty and staff.
   
   A. Increase the number and proportion of full-time faculty and the number of endowed chair positions.
   B. Provide salaries that are nationally competitive for master’s-level universities.
   C. Increase faculty and staff diversity through proactive recruitment and retention.
   D. Provide extensive faculty and staff development in teaching, research, and service.
   E. Promote, recognize, reward, and publicize exceptional accomplishments of faculty and staff.

2. Offer a broad array of graduate and undergraduate programs that meet the highest standards of their disciplines and respond to regional needs.
   
   A. Provide a strong general education program that builds on the traditions of the liberal arts and sciences, emphasizes critical thinking, enables students to work in a multicultural and global economy, and prepares them for the responsibilities of citizenship.
   B. Structure undergraduate curricula to assure that students achieve the learning goals established in the IPFW Baccalaureate Framework.
   C. Begin the development of an IPFW Graduate School, with a mission to expand graduate program offerings, increase graduate enrollments, and develop appropriate linkages with Indiana University and Purdue University graduate schools.
   D. Establish new undergraduate programs to meet emerging regional needs and student interests.
   E. Expand the number of articulation and transfer agreements with Ivy Tech Community College and increase participation in the agreements.

3. Promote the use of multiple methods of teaching and delivery to expand access and improve student learning and success.
   
   A. Expand the use of active learning pedagogies to enhance student learning.
   B. Increase student research, internships, study abroad, international experiences, Honors Program participation, and other forms of experiential learning.
   C. Expand and support the effective use of instructional technology.
D. Provide multiple methods of delivery to increase access.
E. Establish a strategic direction for further growth in distance education.
F. Promote residential learning communities in Student Housing.

4. Assure quality and effectiveness of academic programs through accreditation, program review, and assessment of student learning.

A. Encourage and support the accreditation of all eligible programs.
B. Implement a uniform, campuswide assessment system (e.g., eLumen) to track and report on student learning.
C. Integrate assessment and program review to improve student learning.
D. Participate in the national initiative to establish a Voluntary System of Accountability.

5. Expand academic support for a diverse community of learners to facilitate student success and create a culture of graduation.

A. Expand academic support services and processes to identify students who could benefit from use of these services.
B. Implement the recommendations identified in the Foundations of Excellence assessment to provide an integrated first-year experience.
C. Build a Learning Commons in Helmke Library and expand academic support for student success.
D. Increase library resources and services to support teaching, learning, and research.
E. Create attractive and effective learning spaces throughout the campus.

6. Promote and support faculty research/creative activity and increase external funding.

A. Strengthen services, infrastructure, and funding provided through the Office of Research and External Support and through university grant programs.
B. Expand the number and scope of the Centers of Excellence as centers for research and engagement.
C. Provide support programs to encourage student research and publicize the results of these research projects.
D. Encourage the development of flexible faculty workload policies to support research/creative endeavor and engagement.
Goal 2: Develop Quality of Place and Experience

Quality of place is a view of the university campus as a community of learners connected by a commitment to academic achievement and shared values. It is enhanced through a philosophy of inclusion that recognizes the strengths inherent in the diversity of faculty, staff, and students. It is experienced through participation in programs and events important to members of the campus community.

**Strategic Directions and Action Priorities:**

1. Increase student enrollment in a steady and sustainable manner toward the goal of 15,000 students.
   
   A. Enhance programs designed to support recruiting and retention of qualified students and to improve graduation rates, with a particular focus on students seeking bachelor’s and master’s degrees.
   
   B. Attract additional Core 40 and Honors Diploma graduates, international students, those from historically under-represented backgrounds, and those who would be first-generation students.
   
   C. Expand financial aid programs that support the university’s goals for affordable access for all qualified students and increased regional educational attainment.
   
   D. Increase support for cooperative admission and transfer programs among the Indiana University and Purdue University campuses.

2. Promote IPFW as an inclusive university community of students, staff, faculty, and alumni as well as members of their families.

   A. Enhance opportunities for academic and social connections to the campus community.
   
   B. Encourage all members of the campus community to support IPFW intercollegiate athletics.
   
   C. Promote a sense of pride in the campus community.
   
   D. Expand the scope of programming and services designed to celebrate the broad range of cultures and interests represented in the campus community.

3. Encourage personal and professional development for all members of the university community.

   A. Increase opportunities for students to participate in student activities programs and in wellness and intramural athletics programs.
   
   B. Expand opportunities for faculty-student engagement and student leadership development.
   
   C. Promote the development of the whole student through integrated programming that fosters the development of ethical values and civic responsibilities.
   
   D. Broaden student connections to the campus community and enhance learning by improving orientation programs, academic advising, academic assistance, mentoring, and personal support services.
E. Strengthen programming and services for alumni to promote their personal and professional development.

4. Continuously re-engineer infrastructure and services to improve support for students, faculty, staff, and others who interact with IPFW.

   A. Emphasize continuous improvement of student services and business services.
   B. Invest in expansion of the university’s integrated marketing plan.
   C. Strengthen the effectiveness of information technology support for all campus programs and services.
   D. Expand efforts to assess student and faculty satisfaction with university programs and services and compare levels of satisfaction with national norms.

5. Improve and expand physical facilities and campus grounds.

   A. Improve the degree to which physical facilities support the university’s goals for growth in teaching, research, and service.
   B. Update the campus master plan for facilities, grounds, and parking, with an emphasis on sustainability and environmental stewardship.
   C. Develop and complete the third phase of Student Housing.
   D. Complete construction of the Student Services project.
   E. Assess the adequacy of campus safety and emergency preparedness planning.

6. Enhance financial support for university programs and services.

   A. Increase state funding to the statewide average for Master’s I universities.
   B. Expand gift and grant support for programs and services.

Goal 3: Contribute to the Development of the Northeast Indiana Region

IPFW sponsors educational, cultural, and recreational opportunities for community audiences of all ages and engages in projects with regional businesses that improve their sustainability and competitiveness. Targeted projects are built upon active communication with the community, an entrepreneurial spirit, and cooperative investments. IPFW seeks to provide intellectual leadership by stimulating debate, modeling diversity, and providing expertise to community partners.
Strategic Directions and Action Priorities

1. Engage and enrich the community through programs hosted on campus and through the campus environment.
   A. Increase the range of diverse cultural, athletic, artistic, educational, and recreational activities to the community.
   B. Expand opportunities for on-campus lifelong learning and professional development.
   C. Establish additional campus destinations that engage and draw the community to campus.
   D. Provide additional campus resources for strategic community partnerships.

2. Provide and extend university expertise, services, and support throughout northeast Indiana.
   A. Extend outreach programs and P–16 partnerships for youth and under-served populations that encourage participation in education, with special emphasis on the science, technology, engineering, and mathematics (STEM) disciplines and on school improvement initiatives.
   B. Invest in additional partnerships in education, research, and service.
   C. Expand programs to share student, staff, and faculty expertise with community organizations and expand faculty and staff participation on community boards.
   D. Increase collaborations with, and serve as a resource for, legislators, community leaders, and alumni to identify ways to meet regional needs.
   E. Offer an expanded series of lifelong learning opportunities through regional sites and distance education.

3. Enhance regional economic development.
   A. Expand the university’s role in regional economic development and planning initiatives.
   B. Increase support for economic development through Technology Transfer and Commercialization programs, Office of Engagement initiatives, and partnerships with area defense industries and other high-priority industry clusters.
   C. Provide additional support for new business innovation through expanding partnerships with the Northeast Indiana Innovation Center (NIIC), the Small Business Development Center (SBDC), the Indiana University School of Medicine - Fort Wayne program, and other campus partners and centers.
Assessment of Progress

IPFW will assess progress toward these goals through comparisons with the achievements of a set of peer institutions and monitoring of a selected set of institutional change metrics.

Peer Institutions

Peer institutions have been identified to provide comparative information about the characteristics and performance of institutions that are similar to IPFW. The process of identifying peer institutions included use of the following criteria:

Classification as a public, master’s-level university in the Carnegie Classification of Institutions of Higher Education, since IPFW is a member of this group.

An undergraduate student enrollment between 9,500 and 18,500, since both smaller and larger institutions differ from IPFW in significant ways.

An acceptance rate of at least 70 percent, since lower rates of acceptance suggest that a different mission is being served by the institution.

A maximum housing capacity of 20 percent, since institutions that house more of the student body have significantly different characteristics.

A full-time student percentage of less than 90 percent of undergraduate enrollment, since service to part-time students is an important part of IPFW’s mission.

This screening process was applied to all public, master’s universities in the country, yielding the following initial set of peer institutions:

- Boise State University (Idaho)
- CUNY-College of Staten Island
- Eastern Michigan University
- Eastern Washington University
- Northern Kentucky University
- Southeastern Louisiana University
- University of Alaska-Anchorage
- University of Central Oklahoma
- University of Nebraska-Omaha
- University of South Alabama
- Youngstown State University

Data about the peer institutions will serve as benchmarks in evaluating IPFW’s progress in meeting the goals of the Strategic Plan.

2. *Develop Quality of Place and Experience*

3. *Contribute to the Development of the Northeast Indiana Region*
## Financing the Plan

### Recent Changes in University Funding

The share of funds provided by the state has declined from 51 to 47 percent of the general fund budget in the past five years. Student fees have shown a corresponding increase in the same time period, from 49 to 52 percent, while other budgeted income has been relatively constant at slightly less than 2 percent.

### Funding Requirements of the Plan

New state operating funds and reallocations will be required, particularly for increasing faculty positions and salary levels and for creation of new degree programs. Capital project funds from both state and other sources will be needed to support the facilities projects that have been identified as priorities. Many of the other initiatives will be pursued through combinations of funds from reallocations, grants, and gifts. Reallocation of campus funds will provide an important measure of IPFW’s commitment to achieving the goals described in this plan.

Implementation Plan

The IPFW Strategic Plan for 2008–14 will be implemented during the 2008–09 academic year through a series of initiatives that includes

- broad publicity about the establishment of the new plan.
- alignment of the strategic plans of the IPFW colleges, schools, divisions, and administrative offices with the new plan.
- alignment of the university budget with the new plan.
Strategic Planning & Review Council (SPARC)

Purpose

To coordinate the implementation and evolution of the IPFW Strategic Plan. To review institutional change metrics and benchmarks tied directly to Strategic Plan goals and strategies. To update strategic planning goals and strategies in response to analyses. To prepare and present an annual Strategic Planning and Institutional Improvement Report for university-wide and public dissemination.

Membership

Speakers of the Faculty (2)
Presiding Officer of the Senate
Faculty Representatives (5 faculty elected by the Senate, from at least three colleges/schools/divisions, serving staggered three-year terms)
Chancellor (Chair)
Vice Chancellor for Academic Affairs
Vice Chancellor for Financial Affairs
Vice Chancellor for Student Affairs
Enrollment Management
Diversity and Multicultural Affairs
Academic Success Center
Development
Institutional Research
University Relations and Communications
Administrative and Professional Staff Advisory Council representative
Clerical and Service Staff Advisory Council representative
Student Government representative
Community Advisory Council representative

Annual Plan of Work

January–April—Institutional Research and other offices compile institutional data, compare data to change indicators and benchmarks, conduct trend analyses, and prepare report to full council.

May–August—Evaluation of changes to strategic planning goals and strategies in response to data about accomplishments; preparation of annual report.

November 1—Release of annual report.
