Grading Your Assignment and Viewing Worked Out Solutions:

To grade your completed assignment click on the Grade link.

⚠️ When you have completed an assignment, make sure you click on Grade and not just on Quit & Save.

If you have not answered any of questions in your assignment, you will be warned and have the opportunity to complete them before grading. If any of your answers include math syntax errors or other input not understood by eHW, you will also be warned and have the opportunity to fix those specific questions:

<table>
<thead>
<tr>
<th>Back</th>
<th>Next</th>
<th>Grade</th>
<th>Help</th>
<th>Quit &amp; Save</th>
</tr>
</thead>
</table>

Warning: There appear to be errors in your answers to the questions listed below.

- Press the Back button or click on one of the questions in the list to go back and correct your work.
- If you press Grade again, you will get your grade immediately, but the questions listed below will all be graded as wrong.

Question 1: (1 point) The question has not been answered
Question 2: (1 point) Has not been answered yet.
Question 6: (1 point) The formula has no symbols in it.
Question 7: (1 point) You have not filled in all the blanks.

Once you click on Grade again, you will see your percentage score and the number of questions you answered correctly.

Thank you
Your assignment is complete. You scored 9 out of 10 (90%).

To view your graded assignment and see any detailed feedback that is available click on the View Details link. You will then see your actual assignment with solutions and any detailed feedback, with an option to print.
