Office of Research,
Engagement, and Sponsored
Programs (RESP) is a unit
within the Office of Academic
Affairs (OAA) that was created to
serve the scholarly and creative
activities of faculty, students, and
staff. Our mission is to facilitate
the procurement of external
support through research grants,
contracts, and technical assistance
agreements; to administer internal
support for research; and to
document and publicize the scholarly
achievements of members of the
IPFW community.
The Office of Research, Engagement, and Sponsored Programs is pleased to present the tenth annual report of research activities at IPFW. Total awards during the 2011–12 fiscal year exceeded $6.2 million, with applications for new funding exceeding $18 million.

Federal funding in support of research and student services activities represents an essential component of the university’s support, and for the sixth consecutive year funding from federal sources represents the largest category of support received.

The continued growth in federal grant activity is the result of a strategic plan to target funding sources that support the facilities and administrative costs of university operation. By contributing directly to the growth of the institution through their receipt of federal funding, our researchers are not only supporting their own work, but are also making an essential contribution to the economy of northeast Indiana.

As a regional comprehensive university, IPFW is committed to providing both an outstanding educational experience for our students as well as supporting the creation of new knowledge through the scholarly achievements of our faculty. We invite you to take a few moments to review the wide range of projects that have received extramural funding.

IPFW is deeply appreciative of the efforts of our faculty and staff who have so greatly contributed to the growth and success of our university and region.

J Albayyari
Associate Vice Chancellor
Research, Engagement, and Sponsored Programs

**Overseas Conference Fund grants**
are offered by IPFW, Indiana University’s Office of the Vice President for International Affairs, and the Purdue Research Foundation. These grants partially offset the costs for faculty members to present the results of their research in venues that gain international recognition for them and the university. This year, 25 faculty members received awards, totaling $16,750.

**Other internal grant programs:**
In addition to overseas conference funds, IPFW and various IU or Purdue offices provided research support to more than 45 faculty members totaling $218,120.

Indiana University–Purdue University Fort Wayne

is the largest university in northeast Indiana, offering

more than 200 prestigious IU and Purdue degrees

and certificates. More than 14,000 students of diverse

ages, races, and nationalities pursue their education

on our 682-acre campus. IPFW combines challenging

academic programs with student-centered flexibility at

an affordable price. The university’s exemplary standards

in teaching and research provide unparalleled value

for career preparation and professional development

in an ever-changing global market. The university’s

commitment to service makes it an economic, cultural,

and societal leader in the region. IPFW is an Equal

Opportunity/Equal Access University accredited by

The Higher Learning Commission of the North Central

Association of Colleges and Schools.
