Discussion was held on the following:
- State Legislature’s 120 credit hour cap for programs that do not have an accrediting agency which already sets the number of credit hours. This has already passed the State Legislature.
- Decreasing fees for high school students to take college credit. Decrease fees to $15.00 a course eventually.
- In response to the State Legislatures desire to decrease the time undergraduates have to spend at the university, I.U. will reduce the cost of summer classes so more students take summer courses. Purdue’s response was possibly going to trimesters.
The Assembly members would like Chair Marshall to bring these matters to the attention of Dean Yen.

Faculty Affairs Committee:  Lubomir Stanchev, Chair
- A motion was made and passed that the Faculty Affairs Committee will evaluate and modify the department chair evaluation form and submit a new shortened evaluation to the Assembly for review at the April 2nd meeting.

Dear Dean Yen and ETCS Chairs,
It has been brought to the attention of the Assembly that ETCS remains the only place on campus where unlimited printing is allowed. Upon surveying the departments it was discovered that some departments bear the expense for the paper and toner cartridges used in the labs and some do not. The yearly cost to the MCET department alone exceeds the cost of software that would allow Mike Pressler to control student printing. The sense of the Assembly at this time is to refer this problem to the ETCS administration for consideration and action.
DJ Marshall, Chair ETCS Assembly
