Placement Tests

As a new IPFW student, you must take the English and math placement tests as part of your enrollment process once you arrive on campus. The Office of International Education will make this appointment for you and it will be held during International Student Orientation.

Your assigned advisor will tell you when to take the math placement exam for your first semester during your Advising and Registration appointment during orientation.

If you have a foreign language requirement for your major and you completed two years of foreign language classes in high school, you must take a foreign language placement test prior to registration.
