A great education depends on great educators, and IPFW is fortunate to have truly extraordinary faculty. These are not just good teachers. These are men and women who have earned the highest degree in their field and still strive to accomplish more.

This report, Faculty Accomplishments, was compiled from data provided by the deans and directors in their annual reports of faculty productivity. It provides a comprehensive listing of the scholarly and creative activities of the faculty achieved during the 2006 academic year.

The academic reputation of IPFW is founded on the accomplishments of the faculty. By publishing this report, the university, in part, fulfills its goals of celebrating those accomplishments.

Pictured on the front and back covers are six (from among the many) outstanding IPFW faculty members who were featured this year during the IPFW Featured Faculty campaign.

We will continue to highlight exceptional IPFW faculty in the years to come via the Featured Faculty series, through this publication—Faculty Accomplishments, and through the ORES Annual Report.

We congratulate all of the faculty for their continuing success and for their continuing efforts to position IPFW at the heart of the intellectual life of northeast Indiana.

Front cover (clockwise): James Lutz, Department of Political Science; Adam Coffman, Department of Mathematical Sciences; and Robert Visalli, Department of Biology

Back cover (clockwise): Elizabeth Thompson, Department of Engineering; Audrey Ushenko, Department of Fine Arts; and Stephen Zeigler, Division of Public and Environmental Affairs
