The Office of Academic Affairs is pleased to present **Faculty Accomplishments**, a comprehensive listing of the scholarly and creative activities of the Indiana University–Purdue University Fort Wayne faculty conducted during the 2007 calendar year. This publication is a small way for IPFW to recognize, celebrate, and thank the faculty for their endeavors.

The Office of Research and External Support compiled this report from data provided by faculty in their annual reports of productivity through the new iBIDx scholarly works database (http://ibidx.ipfw.edu). The database features the scholarly and creative works by IPFW faculty and administrative staff, past and present. Citations contained herein have been reviewed carefully and every effort has been made to include all work published and produced at IPFW during 2007, as contained in iBIDX.

We congratulate the faculty for their success and encourage their continuing efforts to position IPFW at the heart of the intellectual life of northeast Indiana.
