The Office of Academic Affairs is pleased to present this report of faculty accomplishments at IPFW. The Office of Research and External Support compiled this report from data provided by the deans and directors in their annual reports of faculty productivity. It is the purpose of this document to bring together a comprehensive listing of the scholarly activities of the faculty conducted during the 2005 calendar year.

During 2005, IPFW faculty achieved an impressive level of productivity, publishing 15 books, 19 book chapters, 176 peer-reviewed publications, 92 exhibitions and performances, 62 proceedings, manuals, and book reviews, and 328 presentations at regional and national professional meetings.

The academic reputation of IPFW is founded on the accomplishments of the faculty. By publishing this report of accomplishments, the university, in part, fulfills its goal of celebrating those accomplishments.

I congratulate the faculty for their continuing success, and I encourage their continuing efforts to position IPFW at the heart of the intellectual life of northeast Indiana.

Carl N. Drummond, Ph.D.
Associate Vice Chancellor for Research and External Support
